GENERAL INFORMATION

1. INTRODUCTION

Pre Hospital Care Services (PHCS) in general terms means the caring of patients outside of hospital. It covers a wide range of medical conditions, medical interventions and physical locations. The medical conditions can range from minor illness and injury to life threatening emergencies. The intervention also ranges from first aid to advanced emergency care.

In Ministry of Health Malaysia, the caring of patients outside of hospitals are provided by Allied Health professionals (AHP) mainly from Emergency and Trauma Services (EMTS) and also supported by the those from Primary Healthcare Services.

EMTS has its own credentialing process and criteria in the National Credentialing Committee (NCC). Many of the criteria include the intervention that are carried into the pre hospital arena. However, performance of a particular medical intervention in the hospital is not similar to performing it in out of hospital setting. The out of hospital setting has a wide range of physical locations where an intervention must be carried out and performed effectively.

The role of AHP in hospital environment are mainly to assist physicians in caring of the patients whilst in the PHCS they are the team leader that prescribes and provide the necessary intervention for patients with the aid of protocols. Thus, the credentialing assessment for AHP in PHCS focuses on competency of an AHP to assess, correctly prescribe and successfully provide the intervention required for a patient independent of a direct supervision of physician.

Since AHP in MOH are the only providers of Advanced Life Support intervention in PHCS; thus it is only fitting that the EMTS credentials the AHP whom are able to perform ALS interventions in PHCS. The terms ALS intervention in PHCS describes a responder whom is able to provide advanced airway intervention and provide pharmacological intervention in the field.

2. OBJECTIVES

- 2.1. Provide a process of training, evaluation and assessment of competency of AHP in performing specific tasks safely in the PHCS environment.
- 2.2. Identification of AHP whom have achieved the necessary competency to perform specific tasks safely in the PHCS environment.
- 2.3. Creation of AHP whom can role models and subject matter experts to other staff in the service.

3. SPECIALTY SUB-COMMITTEE IN CREDENTIALING FOR PRE HOSPITAL CARE

In the initial phase of carrying out this credentialing programme, the Specialty Sub-Committee in Credentialing for EMTS (SCC in EMTS) will increase its members to include Emergency Physician (EP) and AHP whom have special interest in the field of PHCS. However, in the long term, there is a need to have a separate SCC in PHCS. This separation would be in line with the Minister of Health vision of PHCS as a separate service on its own.

4. CREDENTIALING CRITERIA FOR PHCS

4.1. In the initial phase of the credentialing process within the first 6 months, a special clause would be applied to selected AHP working in the EMTS whom has the following credentials

4.1.1. Has more than 5 years of experience working in EMTS especially in the field of PHCS.

4.1.2. Have successfully passed the National PHCS ALS Competency Examination which is jointly organized by the College of Emergency Physician (CEP) with EMTS of Ministry of Health and also Medical Assistant Board (MAB).

4.2. There after the AHP is divided into two broad categories

4.2.1. AHP with more than 2 years of experience working in EMTS

4.2.2. AHP with post basic qualifications of either Advanced Emergency Medicine and Trauma Course (AEMTC) or Advanced Diploma in Emergency Care (ADEC).

4.3. Based on the categories, the AHP must fulfil specific criteria as outlined in **Appendix 1**.

5. APPLICATION PROCESS

5.1. Applicants must complete the following items (refer to **Appendix 2**):

5.1.1. Completed AHP 1 and AHP 1(a) – Application for Credentialing form

5.1.2. Completed AHP 2 – Applicant Appraisal form

- 5.1.3. Copy of Basic Diploma or Degree qualification that has been certified as true.
- 5.1.4. Copy of Registration to Medical Assistant Board or Nursing Board that has been certified as true.
- 5.1.5. Copy of Annual Practicing Certificate that has been certified as true.
- 5.1.6. Copy of Post Basic Qualification or Certification that has been certified as true.
- 5.1.7. Copy of National PHCS ALS Competency Examination Certification that has been certified as true.
- 5.1.8. Summary of logbook (if required) that has been certified as true (refer to **Appendix 3**).

5.2. All completed forms must be sent to respective profession body of the applicant.

6. ROLE OF CREDENTIALING IN PHC AT NATIONAL PERSPECTIVE

The SCC EMTS considered the need for a national credentialing programme for PHC responders from sectors outside of Ministry of Health. Implementation of National PHCS ALS Competency Examination as a pre-requisite of credentialing allows objective assessment of responder competency from all sectors within and outside of MOH. However for now it is only at ALS Competency Level.

7. CONCLUSION

The EMTS envisions that with the establishment of discipline specific criteria for credentialing of responder in PHCS, we would be moving in positive direction in creating a new Allied Health Professional field in the medical services of the country.

PERFORMANCE LOG SHEET OF CORE PROCEDURES

Procedure 1: Dispatch Procedures

1.1 Ability To Provide Dispatch CPR Instructions

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

Procedure 11: Drugs

11.1 Proper Application of 7R in Drug Administration

NUM.	DATE	RN OF PATIENT	NAME OF DRUG	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.				Perform		Competent
2.				Perform		Competent
3.				Perform		Competent
4.				Perform		Competent
5.				Perform		Competent

11.2 Knowledge of Individual Drugs (Indication, Contra Indication, Dosage and Complication)

NUM.	DATE	RN OF PATIENT	NAME OF DRUG	SIGNATURE	COMPETENCY
1.			Adenosine		Competent
2.			Adrenaline		Competent
3.			Amiodarone		Competent
4.			Aspirin		Competent
5.			Atropine		Competent
6.			Dextrose		Competent

PERFORMANCE LOG SHEET OF CORE PROCEDURES

Procedure 11: Drugs

11.2 Knowledge of Individual Drugs (Indication, Contra Indication, Dosage and Complication)

NUM.	DATE	RN OF PATIENT	NAME OF DRUG	SIGNATURE	COMPETENCY
7.			Diazepam		Competent
8.			Diclofenac Sodium (IM)		Competent
9.			Furosemide		Competent
10.			Lidocaine		Competent
11.			Magnesium Sulphate (IM)		Competent
12.			Midazolam		Competent
13.			Morphine		Competent
14.			Naxalone		Competent
15.			Nitroglycerine (SL)		Competent
16.			Nitrous Oxide for Pain Relief		Competent
17.			Salbutamol		Competent

PERFORMANCE LOG SHEET OF CORE PROCEDURES

Procedure 12: Patient Movement and transportation

12.1 Emergency Move Of Patients

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Assist		Competent
2.			Assist		Competent
3.			Perform		Competent
4.			Perform		Competent
5.			Perform		Competent

Procedure 13: Disaster Management

13.1 Field Triage

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent
2.			Perform Simulation/ Training		Competent
3.			Perform Simulation/ Training		Competent
4.			Perform Simulation/ Training		Competent
5.			Perform Simulation/ Training		Competent
6.			Perform Simulation/ Training		Competent
7.			Perform Simulation/ Training		Competent
8.			Perform Simulation/ Training		Competent
9			Perform Simulation/ Training		Competent
10.			Perform Simulation/ Training		Competent

Procedure 13: Disaster Management

13.2 Scene Staging In Multiple Casualty Incident

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent
2.			Perform Simulation/ Training		Competent
3.			Perform		Competent

13.3 Decontamination in CBRN Incident

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent
2.			Perform Simulation/ Training		Competent
3.			Perform Simulation/ Training		Competent
4.			Perform Simulation/ Training		Competent
5.			Perform Simulation/ Training		Competent

Procedure 14: Simulation on Patient Assessment And Intervention**14.1 Assessment and Management Of Patient In Respiratory Distress**

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

14.2 Assessment And Management Of Patient With Broncial Asthma

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

14.3 Assessment And Management Of Unconcious Patient

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

14.4 Assessment And Management Of Trauma Patient With Hemorrhage

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

Procedure 14: Simulation on Patient Assessment And Intervention**14.5 Assessment And Management Of Trauma Patient With Chest Injury**

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

14.6 Assessment And Management Of Trauma Patient with Abdominal Injury

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

14.7 Assessment And Management Of Patient With Failed Airway

NUM.	DATE	RN OF PATIENT	LEVEL OF INVOLVEMENT	SIGNATURE	COMPETENCY
1.			Perform Simulation/ Training		Competent

**PRE HOSPITAL CARE SERVICES
SUMMARY OF LOG-BOOK FOR CORE PROCEDURES**

A. Personal Details

Name:

Identification Card Number:

No	1. Dispatch and Communication Procedures	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
1.1	Ability to provide dispatch cpr instructions			5	5				
1.2	Ability To Manage and Triage Emergency Calls Including METHANE			5	5				
1.3	Ability To Provide Delivery and Management of Newborn Instructions (Normal Delivery)			5	3				

No	2. Scene Assessment and Safety	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
2.1	Scene assessment in primary response			5	5				
2.2	Scene and risk assessment in medical standby			1	3				
2.3	Scene Staging in Multiple Casualty Incident			2	1				

No	3. Airway Procedures	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
3.1	Insertion of airway adjuncts (oropharyngeal or nasopharyngeal airway)**		2		10				
3.2	Sellick's Maneuvre**		1		5				
3.3	Insertion of supraglottic devices			10	1				
3.4	Perform tracheal bronchial suctioning		1		5				
3.5	Perform adult endotracheal intubation (crash airway)			10	1				
3.6	Removal of foreign body (ent) using direct or indirect methods			5	5				

No	4. Breathing and Ventilation	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
4.1	Administration of oxygen therapy**				10				
4.2	BiPAP / CPAP**		2		10				
4.3	Needle Chest Decompression			10					
4.4	Chest tube monitoring			1	3				
4.5	ETCO2 / Capnography**			1	3				
4.6	Bag Valve Mask Ventilation**		2		10				
4.7	Assemble and Test, Set and Change Parameters of Ventilator			1	3				
4.8	Assess the Severity of Acute Bronchial Asthma / COAD Prepare, Prescribe and Administer Nebulizers		2	10					

No	5. Circulation	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
5.1	Intravenous Cannulation**				10				
5.2	Intraosseous			10					
5.3	Central Line Cannulation - Femoral and External Jugular Vein			10					

No	6. Cardiac Care	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
6.1	AED / Manual Defibrillation			1	5				
6.2	Cardioversion			6					
6.3	Carotid Massage**			1	5				
6.4	Transcutaneous Pacing**			1	1				

No	7. Trauma Care	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
7.1	Spinal Immobilization**		2		5				
7.2	Extrication of Seated Trauma Patient		2		5				
7.3	Extremity Splinting		2		5				
7.4	Traction Splinting		2		5				
7.5	Torniquet Application and Care		2		5				
7.6	Cervical Immobilization		2		5				
7.7	Application of Pelvic Immobilizers		2		5				
7.8	Apply hemorrhage control principles in open wound		2		5				
7.9	Perform hemostatic suturing		2		5				
7.10	Management Of Patient With Evisceration			10					
7.11	Management of patient with impaled foreign object			10					
7.12	Management and Handling Amputation Injury and Amputated Limb			5					

No	8. PPE and Infection Control	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
8.1	PPE Level 2				5				
8.2	PPE Level 3			3					
8.3	PPE Level 4			2					
8.4	Decontamination of Vehicle and Equipment		2		5				
8.5	Decontamination of Person (CBRN)			5					

No	9. Transportation of Patient (Manual Handling)	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
9.1	Emergency move of patients		2		3				
9.2	Non Emergency Move		2		3				

No	10. Communications Skills	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
10.1	Radio Communication			1	5				

No	11. Drugs	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
11.1	Proper Application of 7R in Drug Administration				5				
11.2	Knowledge on use of adenosine			1					
11.3	Knowledge on use of adrenaline			1					
11.4	Knowledge on use of amiodarone			1					
11.5	Knowledge on use of aspirin			1					
11.6	Knowledge on use of atropine			1					
11.7	Knowledge on use of dextrose solution			1					
11.8	Knowledge on use of diclofenac sodium			1					
11.9	Knowledge on use of furosemide			1					
11.10	Knowledge on use of lidocaine			1					
11.11	Knowledge on use of magnesium sulphate			1					
11.12	Knowledge on use of midazolam			1					
11.13	Knowledge on use of morphine			1					
11.14	Knowledge on use of naloxone			1					
11.15	Knowledge on use of nitroglycerine			1					
11.16	Knowledge on use of nitrous oxide			1					
11.17	Knowledge on use of salbutamol			1					

No	12. Patient Movement And Transportation	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
12.1	Emergency move of patients		2		3				
11.2	Patient transfer methods		2		4				

No	13. Disaster Management	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
13.1	Field triage			10					
13.2	Scene staging in multiple casualty incident			2	1				
13.3	Decontamination in CBRN incident			5					

No	14. Simulation On Patient Assessment And Intervention	Required				Done			
		O	A	P(S)	P	O	A	P(S)	P
14.1	Assessment and management of patient in respiratory distress			1					
14.2	Assessment and management of patient with bronchial asthma			1					
11.3	Assessment and management of unconscious patient			1					
11.4	Assessment and management of trauma patient with hemorrhage			1					
11.5	Assessment and management of trauma patient with chest injury			1					
11.6	Assessment and management of trauma patient with abdominal injury			1					
11.7	Assessment and management of patient with failed airway			1					

**O – Observe ; A – Assist ; P(S) – Perform in simulation, skill station setting;
P – Perform in clinical setting.**

C. VERIFICATION BY HEAD OF DEPARTMENT OR SUPERVISOR

I have reviewed the applicant's log-book and verify the information provided above with the primary source. I also verify that the applicant has successfully completed his log-book requirement.

Signature of Head of Department or Credentialed Supervisor
